1. INTRODUCTION

The After-Life Dissemination Plan is a document foreseen by the LIFE+ Metro Adapt project within the "After-Life" action.

The plan intends to present the project actions that will be carried out by the various partners in the After-Life and the different communication channels and tools that will be used by the LIFE Metro Adapt project partners to continue the dissemination of the project in the next 5 years and the training activities and different projects that will be implemented to give continuity and consolidate the project results.

The plan is divided into the following activities

- Follow-up of project actions
- Website and social media
- Participation in events
- Networking and planning
- Training

For each of these categories, the plan lists short-term (1 year) and long-term (2-5 years) actions

2. Follow-up of project actions

Actions	Accountable partner	Partnersinvolved	Activites	Date	Location	Target	Financial resources
C1	EGEOS	CMM	Developing new knowledge and data in the field of environment and climate using satellite data	Short to medium term	world wide	Public administrations	Funding calls
C1	CMM	EGEOS	Vulnerability analysis updated with new 2021 census data	Short term			Internal to CMM
C2	CMM		PTM Monitoring Plan	Short to medium term		Municipalities	Internal to CMM
C2	CMM	All	Climate KnowledgeNetwork: annual thematic meetings	Medium to long term	CMM		Internal to CMM + support from partners/funding
C2	AMBIT	All	Guidelines on financial tools: all partners will give visibility of funding possibilities for climate studies, NBS and Adaptation Measures in their communication channels.			Municipalities and stakeholders	own resources
D1	CMM	All	Updating of the Life action monitoring tool platform: The partners are willing to update annually the information on the NBSs in the metropolitan area that they have been involved in implementing. CMM undertakes to update the platform and publish it on its institutional website.	Medium to long term			own resources
C4	CAP		Maintenance of the NBS site in Masate*	Medium to long term	Municipality of Masate		own resources
C4	CAP		Maintenance of the NBS site in Solaro*	Medium to long term	Municipality of Solaro		own resources
C4	CAP		Implementation of other NBS actions in the territories: already carried out in the municipalities of Paullo and Varedo, under planning in Inveruno and PadernoDugnano.	Short to long term	Municipalities in the Metropolitan City of Milan		
C5	CMM	AMBIT	"Ready to Use Kit" of key project results that can easily be re-used by supporters and other CMs	within 6 months of the end of the project		Metropolitan cities and supporters	own resources
C5	LAL		Signature of the Manifesto for	Medium term	Lombardy	83 Legambiente	own resources

			Adaptation to Climate Change by Legambiente Lombardia circles			circles in Lombardy membership of at least 25 circles	
--	--	--	---	--	--	---	--

*The maintenance of the works in the project, as reported in the specific maintenance plans, foresees the following operations to be carried out on the rainwater collection channels: inspection of chambers and structures (annual), verification of joints and pipes (every four years), verification of frames and manholes (annual), verification of other inlet wells or embrasures (annual), verification of metal carpentry (annual), washing and purging of chambers and structures (every three years), washing and purging of embrasures (every three years). The following periodic operations are also envisaged: repair/replacement of piping, repair/replacement of inspection elements, cleaning and flushing of the connecting duct between the manhole and the leaking wells, cleaning and flushing of the drainage ditches and leaking wells.

3. Website and social media

Accountable Partner	Partners Involved	Activities	Date	Location	Target	Financial resources
CMM		Institutional website: publishes updates and new information on the Life Metro Adapt project topics.	Long term		Municipalities	Internal to CMM
CMM		Metro Adapt Platform: kept functional and additional information published (Vulnerability 2021)	Till 2026		Municipalities	Internal to CMM
ALDA	LAL	The project website will be online for 5 years				
LAL	ALDA	Instagram (1 post per month for 2 years)	Medium term		General audience	Own resources
ALDA	LAL	Twitter - for the first two months, Twitter will be updated approximately every 15 days with specific posts on the partnership with a short description of the partner and the sharing of active projects of the partner on the topic of environment and climate adaptation. Subsequently, the profile will be updated indicatively once a month for one year, with content related to the project (participation in events and networking activities). (15 days for 2 months post and then 1 month for 1 year)	Medium term		General audience	Own resources
ALDA	LAL	Facebook - for the first two months, Twitter will be updated approximately every 15 days with specific posts on the partnership with a short description of the partner and the sharing of active projects of the partner on the topic of environment and climate adaptation. Subsequently, the profile will be updated approximately once a	Medium term		General audience	Own resources
